MAJOR DEGREE / COURSE (MDC) PROJECT EVALUATION

Automated Phishing Incident Investigation Workbench

A full-stack, enterprise-grade Security Operations Center (SOC) platform engineered for rapid email forensic triage, anchor text spoof detection, threat intelligence enrichment, and MITRE ATT&CK® mapping.

STUDENT / PRESENTER
Shivangi Gupta

SPECIALIZATION DOMAIN
Cybersecurity & SOC Forensics

DEPLOYMENT STATUS
Live Global on Vercel Edge

WHAT TO SPEAK FOR SLIDE 1:
"Good morning/afternoon Sir. Today I am presenting my MDC Project: The Automated Phishing Incident Investigation Workbench. It is a full-stack security platform built to automate the end-to-end investigation of suspicious phishing emails for SOC analysts."
